

LASVIT

A large-scale glass art installation by Lasvit. The background is a dark, textured wall. In the foreground, there are two prominent glass pieces. On the left, a clear, multi-layered glass structure resembling a fan or a series of overlapping petals. On the right, a large, golden-brown glass piece with intricate, swirling patterns and a textured surface, resembling a flower or a piece of abstract art.

"Celestial Blooms"

Lasvit Shines Bright at Dubai's Downtown Design with presentation "Celestial Blooms."

Lasvit, the internationally acclaimed design house specialized in glass and light, is set to present a curated installation at the Downtown Design fair in Dubai. Aptly titled "Celestial Blooms," the booth will be a curated experience presenting Lasvit's unique lighting collections, selection of its iconic modular systems and fresh design concepts.

All pieces explore the wonders and parallels between the cosmos and nature, reminding us of the harmonious ties that bind every entity in the universe.

From the terrestrial landscapes to the vast expanse of the cosmos, there lies a profound connection that often goes unnoticed – a dance of patterns, rhythms, and lights. The "Celestial Blooms" concept captures this ethereal bond, uniting the blossoming of flowers on Earth with the magnificent brilliance of stars and planets in the night sky.

Florescence by Martin Gallo

Designed by Martin Gallo, Lasvit's experienced designer based in Dubai, "Florescence" is not just a wall installation; it's a living entity that mimics a flower in full bloom. This masterful design converges organic glass shapes with mesmerizing dynamic caustic effects, giving life to a flower that seemingly grows on the wall. Beyond the aesthetic, Gallo's inspiration stems from the power of flowers to boost human happiness through the release of dopamine, oxytocin, and serotonin. His design invites observers to witness a tangible blossoming of joy.

Constellation by David Rockwell

Constellation collection was developed in collaboration with the award-winning architect David Rockwell. Each piece of the Constellation series is named after a recognizable constellation and incorporates glass-domed light points connected by a elegant metal structure, just like a star chart. The Constellation series consists of six designs representing Ursa Minor, Cassiopeia, Tri Star, and Polaris, and Gemini.

Spacey by Lukas Novak

With "Spacey," Lukáš Novák encapsulates cosmic magnificence, bringing the universe's splendor into our living spaces. Embracing the sphere's universal perfection, Novák pushes its boundaries, crafting a collection that captivates and fascinates. The historic "lithyalin" technique breathes life into "Spacey," echoing the allure of gemstones.

Lasvit Icon: Herbarium

A poetic homage to the verdant Earth, “Herbarium” captures the quintessence of nature. Employing an innovative glassmaking technique, the design embeds the essence of flora within glass, letting nature’s serenity resonate in every corner of one’s space. The masterpiece offers an opportunity to eternalize one’s family tree in exquisite glass, blending heritage with artistry.

Lasvit Icon: Midsummer

Midsummer Icon was designed by Jana Růžicková and Yabu Pushelberg. Envisioning the vibrancy of a summer night, “Midsummer Icon” is a testament to the fusion of warmth and brilliance. This intricate assembly of metal and glass embodies the delicate dance of nature’s hues and forms. A union of warm and cold, light and shadow, “Midsummer” is a dazzling jewel for any dwelling. Comprised of modular “rings,” this design concept offers customization to fit every interior. From warm hues of rose, gold, and silver to the cool allure of clear bubbles and smoke, Midsummer is an epitome of design flexibility and grandeur.
