MUSH ROOM COLLECTION

DESIGNER: René Šulc

YEAR OF DESIGN: 2018

The half-meter tall, mushroom-shaped light gives off a warm, magical glow which manages to transform any space into a fairy-tale forest. “The Armillaria species, or honey-fungus, is fascinating in that each one is very different,” René Šulc says. Mush-room thus plays not only with the possibility to dim the magical light, but also plays with the glass, each of which is a unique product of its own. “Each piece is a singular original, and is specific both in shape and height,” the designer says.
